

# LIVE UNITED™

## ADVOCATING FOR COMMUNITY CHANGE

When you choose to LIVE UNITED, you choose to stand up and speak out on causes that you care about. Whether you choose to advocate for after school programs in our community or on behalf of an elderly person who needs your help, use your voice to power change in our community this year. There is power in numbers, and often opportunities arise where we can let our policy makers know how we feel about important issues that affect our community.

This year, you can advocate through United Way's new ONLINE ADVOCACY TOOL at [uwrochester.org/advocate](http://uwrochester.org/advocate). There, you can quickly learn about legislation that would directly affect Rochesterians and take action by asking legislative representatives for their support. You can also register to vote, submit an advocacy cause and sign up to receive notifications about emerging community issues on which you can advocate.

If we work together, we can promote change in our community and get support for the problems that need it most. It takes all of us, working together – united and powerful with our voices to build the kind of community for which we all hope.

Thank you for choosing to LIVE UNITED.

Use your voice to  
change our  
community.

Advocate for causes  
you care about.
